

# MEET THE STAFF

# The Scientific Imaging Team

**Einat Zelinger**

**Daniel Waiger**

**Tally  
Kossovsky**

# Einat Zelinger

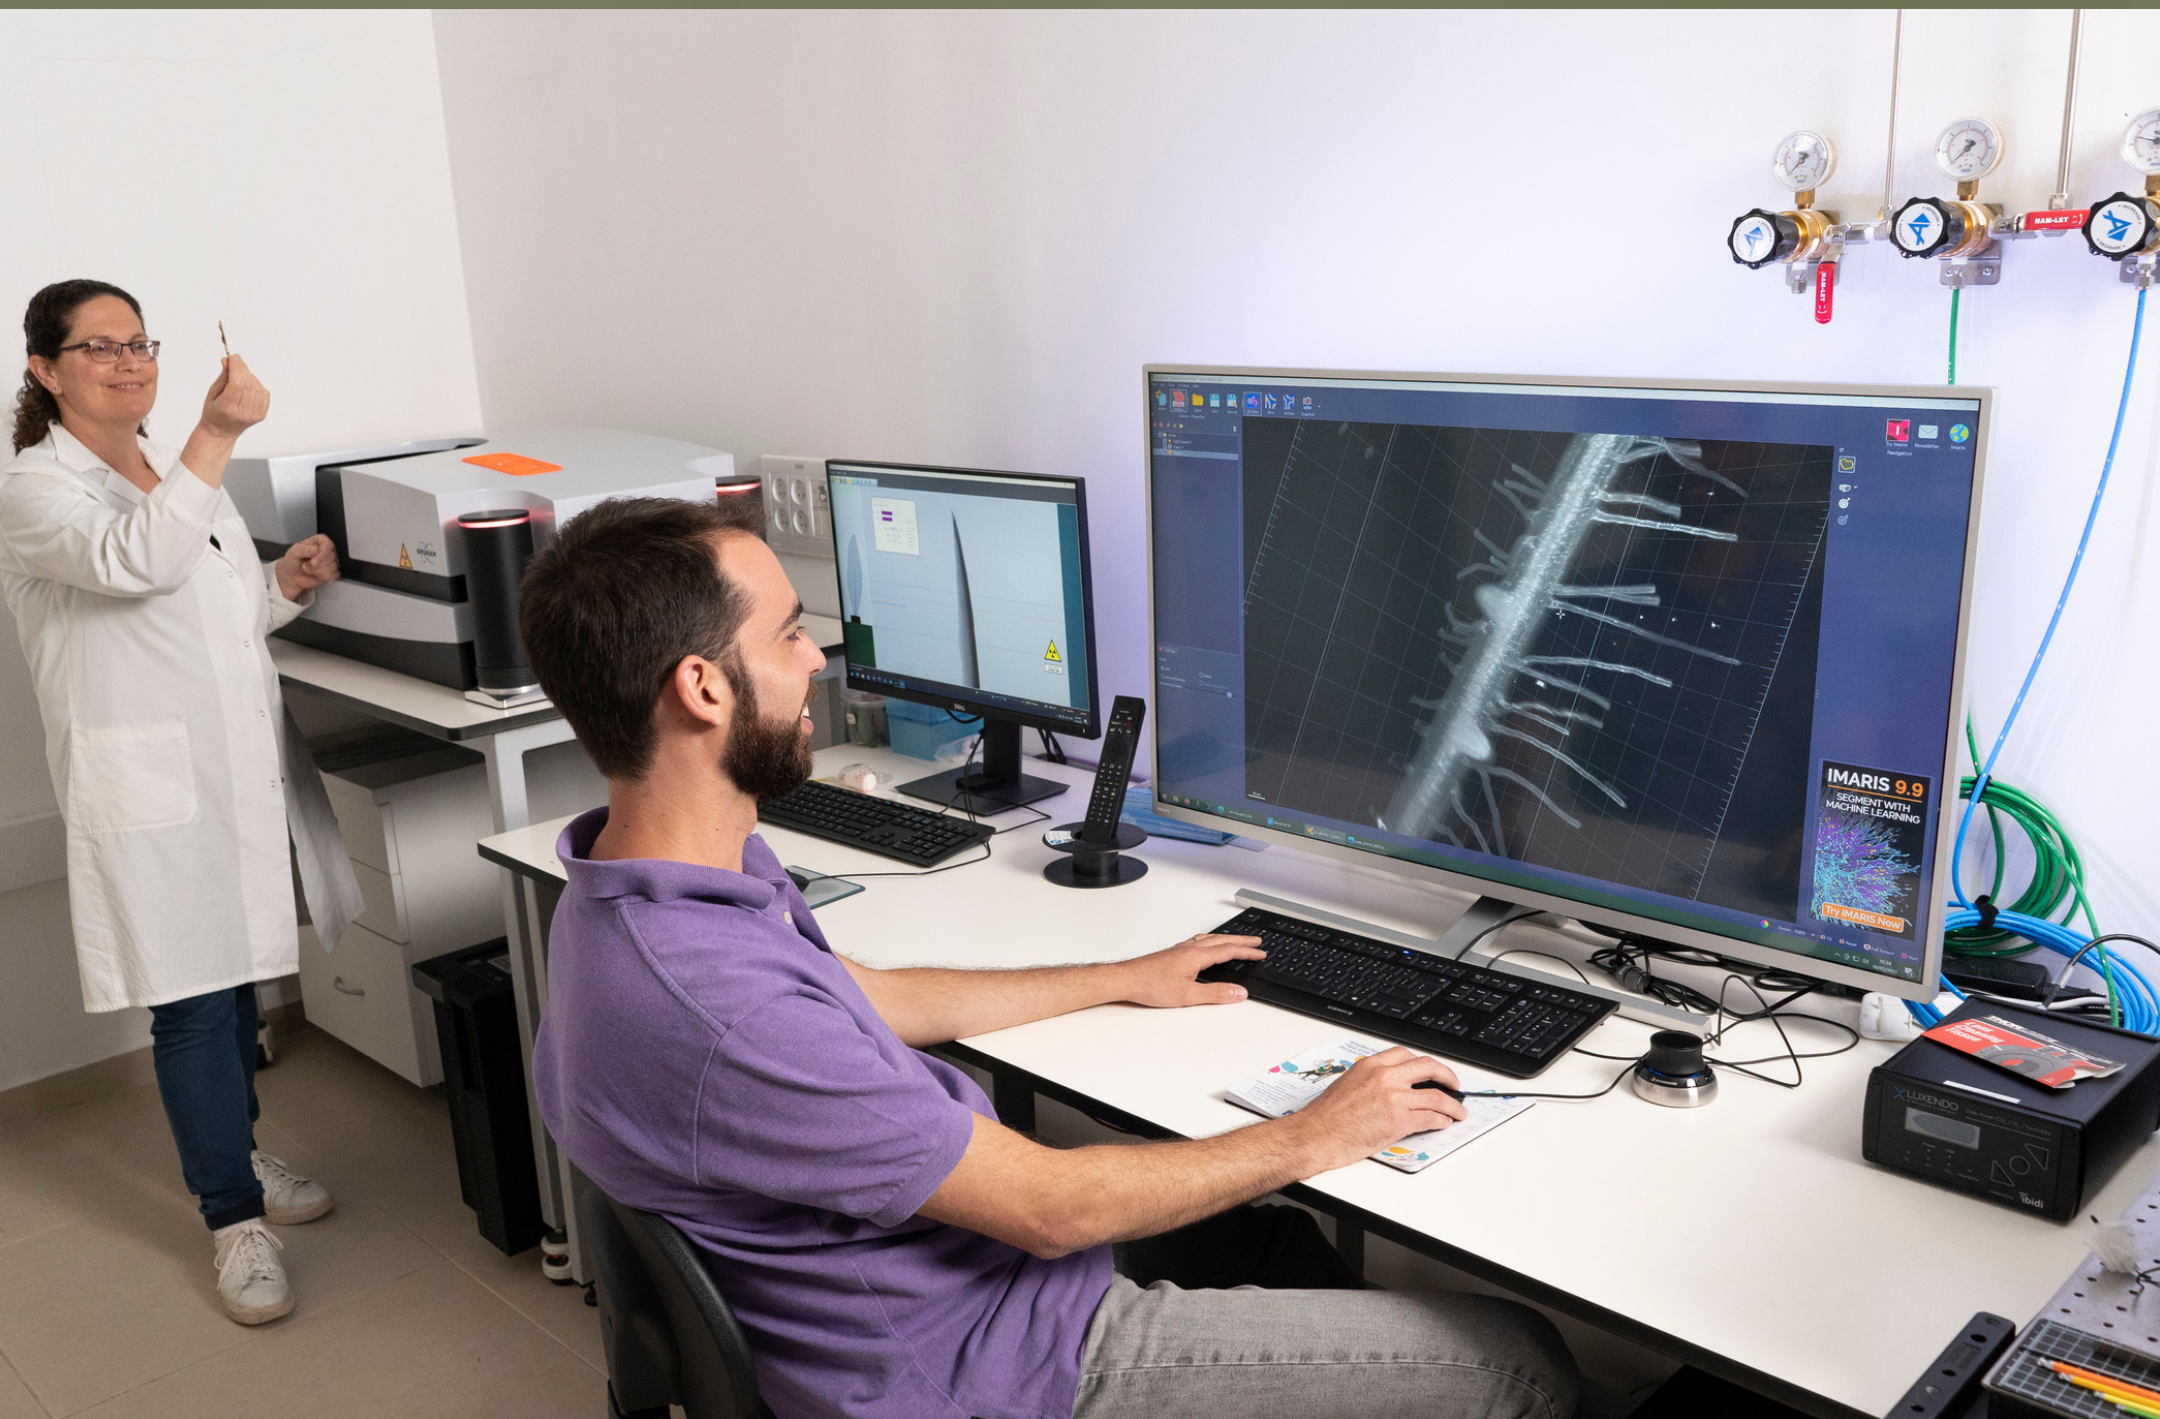

Einat is the Microscopy unit director at the Center for Scientific Imaging at the Faculty of Agriculture Hebrew University.

In her spare time, she takes walks in nature and practices spiritual hilling.

# Daniel Waiger

Daniel is a staff scientist at the Bio-imaging Core Facility.

Among his hobbies you would find Computer games, 3D printing, and learning new technical skills.

# What led you to work at this field?

Daniel: I'm interested in different sorts of research fields, I came here by chance and fell in love with microscopy and image analysis!

Einat: Curiosity!

# What do you love most about your unit?

## Daniel

The people, the colleagues, and the interaction. Sure, we have the research labs but above all - the colleagues and the teamwork.

## Einat

In here we have  
Microscochemistry

**Any tips for researchers that intend to use the unit's infrastructures?**

**Come and consult with the core facility before you send off a grant. Use our services at the grant stage, we can give you an estimate for your specific project.**
